## Description :

Prsentation de l'diteurContaining numerous contemporary images by leading photographers, this indispensable manual for shooting wedding portraits explains posing fundamentals as well as how to create a flattering, feature-specific photograph. As such, it focuses on the head, shoulders, arms, legs or torso in different levels of close-up, from head-shots to full-lengths. Since posing is the second most challenging aspect of photography and with the added complications of a wedding, from the bride's personal style to her figure and gown, this is an indispensable guide.Prsentation de l'diteurContaining numerous contemporary images by leading photographers, this indispensable manual for shooting wedding portraits explains posing fundamentals as well as how to create a flattering, feature-specific photograph.
