Prsentation de l'diteur Use These Powerful Techniques to Build Long-Lasting Confidence and Boosting

Your Self Esteem! Any person can become confident in any situation by using the tools in this book, because it teaches you how to tackle the problem at its root! You've tried every course in self-confidence that came your way. You've started and stopped a dozen different confidence programs and seminars - in confidence, leadership, public speaking and self-development - perhaps paying hundreds if not thousands of dollars in the process. But the truth is: nothing seems to work, and you don't feel any more confident than when you first started. Not working on your self-confidence and self-esteem has negative consequences in all areas of your life; you do not get the job that you want, the raise that you wish for, or even the date with the woman or man of your dreams. You do not accomplish your dreams because you are afraid - you feel that you are not deserving of all that life has to offer, and you cannot muster the courage to take the action that you know you need to. You are afraid to express yourself in front of others, and live your life in the shadow of others.

Low self-esteem is a disease of the mind. It is not real, more often than not, but it stays inside of you and creates a lot of damages to your entire personality. This book contains proven steps and strategies on how to improve your confidence by correcting how your mind works towards yourself - how to give yourself the tools that you need to become confident, in any situation.
