Description :

Prsentation de l'diteurIn January 1959, ten experienced young skiers set out for Mount Otorten in the far north of Russia. While one of the skiers fell ill and returned., the remaining nine lost their way and ended up on another mountain slope known as Kholat Syakhl (or Mountain of the Dead).On the night of 1 February 1959 something or someone caused the skiers to flee their tent in such terror that they used knives to slash their way out. Search parties were sent out and their bodies were found, some with massive internal injuries but with no external marks on them. The autopsy stated the violent injuries were caused by an unknown compelling force. The area was sealed off for years by the authorities and the full events of that night

remained unexplained. Using original research carried out in Russia and photographs from the skier's cameras, Keith McCloskey attempts to explain what happened to the nine young people who lost their lives in the mysterious Dyatlov Pass Incident. Revue de presse "[An] eerie and well-researched tale." --Dread Central "Fantastic." --WVBR-FM on Where Did the Road Go? blog Chock full of background information...the most fascinating theory offered in Mountain of the Dead actually has a possible tie-in to more recent events...I [am] fascinated by McCloskey's inclusion of Yury Yakimov's light set tale. Something tells me there is more going on in the remote Urals than meets the eye and that it may have a connection to a 55-year old mystery. **** --Red Dirt Report Presentation de l'diteur In January 1959, ten experienced young skiers set out for Mount Otorten in the far north of Russia. While one of the skiers fell ill and returned, the remaining nine lost their way and ended up on another mountain slope known as Kholat Syakhl (or Mountain of the Dead). On the night of 1 February 1959 something or someone caused the skiers to flee their tent in such terror that they used knives to slash their way out. Search parties were sent out and their bodies were found, some with massive internal injuries but with no external marks on them. The autopsy stated the violent injuries were caused by an unknown compelling force. The area was sealed off for years by the authorities and the full events of that night remained unexplained. Using original research carried out in Russia and photographs from the skier's cameras, Keith McCloskey attempts to explain what happened to the nine young people who lost their lives in the mysterious Dyatlov Pass Incident.
