Description :

Prsentation de l'diteurIn a large-size format for easy photocopying, this manual presents an empirically tested format and ready-made curricula for skills training groups in a range of settings. Part I takes therapists and counselors step by step through assessing clients' existing skills, teaching new skills, and managing common treatment challenges. Part II comprises over 60 skill sheets. Each sheet--essentially a complete lesson plan--explains the rationale for the skill at hand, breaks it down into smaller steps, suggests role-play scenarios, and highlights special considerations. Appendices include reproducible client handouts and assessment tools; purchasers get access to a Web page where they can download and print these materials for repeated use.Prsentation de l'diteurIn a large-size format for easy photocopying, this manual presents an empirically tested format and ready-made curricula for skills training groups in a range of settings.
