Description :

Prsentation de l'diteurHardPress Classic Books SeriesRevue de presseAs fresh and conversational in style as correspondence between friends, but elegantly and skilfully executed, it is easy to see why it has inspired writers from Darwin to Virginia Woolf (Juanita Coulston, The Lady)I don't usually read the Introduction before the book when I read fiction but, in this case, I would definitely recommend it as Secord's Introduction puts White The Natural History into context.
